

• SOME SEE JUST A CABLE

WE SEE INDIVIDUAL NEEDS

• **Why choose Scankab?**

- Full-line supplier of cables and cable management
- Day to day shipment / high security of supply
- Own production and development
- Cut in customer-specified lengths
- Customer-specific products kept in stock
- Personal service

FULL-LINE SUPPLIER TO THE INDUSTRY

Uniform quality, documentation and high security of supply are inescapable demands on Scankab as supplier of industrial cables and routings for buildings, plants, machines and turnkey projects.

Basis for excellent cooperation

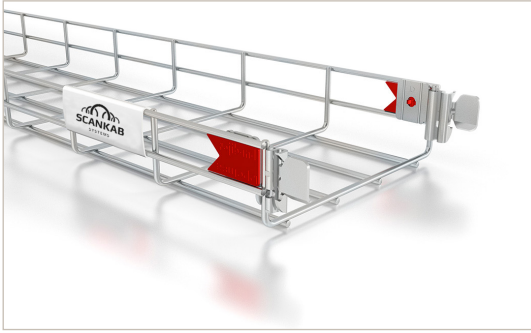

Industrial installation jobs often make significant demands on individual and tailor-made solutions. The prerequisite is a technically well-founded supplier with a wide range of cables and routings for buildings, plants and machines. Scankab can deliver wiring cables, fire-proof cables, rubber-insulated cables, industrial cables, construction site power cables, etc, on a day-to-day basis.

Moreover, as a cable manufacturer, we can easily convert other types of cable to own brands and thus always ensure a uniform and high quality. Naturally, all is documented in complete data sheets.

“The future development in the industry, does absolutely not mean fewer cables or a lesser need for technical and professional knowledge. In this respect, Scankab is able to make significant contributions and help ensure that development continues.”

**” Morten Rasmussen,
adm. direktør, Scankab**

High-quality cable management system

Whether your job requires stainless, hot-galvanised or electroplated routings, Scankab is able to supply it. We provide advice on the surface and structure which provide the best solution for your job. In addition to lattice cable trays, cable trays and cable ladders, we also offer a wide range of accessories.

SCANKAB SET OUT AS THE CABLE INDUSTRY'S ANSWER TO "GARAGE ROCK"

From the outset, Scankab was the rebel of the cable industry. The business sold cables from a small garage store room and challenged the cable market. Today, setting new industry standards is still part of Scankab's DNA. Scankab develops, manufactures and delivers quality cables and routings for electrical installation jobs.
