**Scankab is the obvious partner for you, who deal with tasks within infrastructure, including railway, tunnel, road construction, airport, metro etc.**

#### **A world in constant motion without power failure**

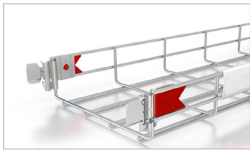

With Scankab as the manufacturer and supplier of cables and cable management systems, the infrastructure will be a stable running operation and energy-efficient solutions.

We have almost 30 years of experience in the cable business and are known for our professional service and complete solutions.

*"The infrastructure required by the companies of the future will not entail the use of fewer cables. These are companies which will require immense volume of electrical power. Scankab wants to secure the supply of that power."*

**”” Morten Rasmussen,  
CEO, Scankab**

## Reduce the risk of power outages with the right cable trays

# BLACK C8

Scankab offers a complete range of cable management systems for installation, including wire mesh trays, cable trays and cable ladders. We stock everything from pregalvanized to stainless steel 316.

Our Cable management systems distinguishes that the same suspension system can be used for all three types of management systems. It ensures an easy and fast installation without unnecessary stock binding in materials.

*"We assist you as a installation contractor, by advising and guiding you and your clients to ensure that you are receiving optimum protection against fire"*

Søren Porse

Technical Manager, Scankab

## Why choose cables from the highest classes of fire safety?

The damage caused by fire, breakdowns or other production stops are lessened by using the B<sub>2ca</sub> and C<sub>ca</sub> installation cables. These cables help to decrease the development of smoke, drops of particles and pyrolytic acids.

# SCANKAB SET OUT AS THE CABLE INDUSTRY'S ANSWER TO "GARAGE ROCK"

From the outset, Scankab was the rebel of the cable industry. The business sold cables from a small garage store room and challenged the cable market. Today, setting new industry standards is still part of Scankab's DNA. Scankab develops, manufactures and delivers quality cables and cable management systems for electrical installation jobs.
